CONFERENCE THEME

The Royal Aeronautical Society Autumn Flight Simulation Conference is a well established and highly successful annual event. The 2009 Conference will examine and progress the issues raised by the changes facing the design and use of Flight Simulation Training Devices (FSTDs). In particular the lower order devices will be examined. The Conference will be held at the Headquarters of the Royal Aeronautical Society in London on Wednesday 18 and Thursday 19 November 2009.

Recent work completed by the International Working Group will shortly be published by ICAO as ICAO 9625 rev.3 and this will define technical standards for the complete suite of training devices. The process adopted and the results will be presented and the impact this will have on the lower order devices will be presented and discussed. In addition, the status of work on a similar exercise for rotary wing devices and the corresponding updates to the RAeS Simulator Evaluation Handbook will be presented and discussed.

The Royal Aeronautical Society's unique ability to stimulate discussion and exchange ideas is becoming ever more relevant with the need to harness the diverse nature of the industry into a cohesive entity. RAeS Conferences seek to be at the forefront of this process and is a highly acclaimed sponsorship and exhibition opportunity.

Why the RAeS?

- The RAeS is globally recognised as the only professional institution dedicated to the entire aerospace community
- As a not-for-profit organisation we are committed to reinvesting back into industry through scholarships, the National Aerospace Library and the only aerospace careers centre in the UK
- By positioning your company, brand and message alongside the RAeS's already prestigious name you'll be working with the world's most influential aeronautical organisation
- Your sponsorship signifies commitment to the industry and will ensure you receive recognition as an active participant in the aerospace community
- In short, we provide a cost-effective and direct route to influence the key decision makers within the Aerospace industry, ensuring a targeted and effective outreach for your marketing campaign
